---

***INSTRUCTIONS***

Answer questions **1** in **Section A** and any **TWO** questions from **Section B** and each question has **20** marks. Total possible mark is **100**.

---

Start **each** question on a new page on your answer sheet.

---

The marks allocated to **each** question are shown at the end of the section.

---

### **Section A: Compulsory**

1. Identify major current public policy issues in your country and use Stokey and Zeckhauser model to suggest a solution. [20]

### **Section B: Answer Any Two**

2. If individuals can order their preferences in a transitive fashion, it should be possible to use majority rule to obtain a collective preference ranking that is also transitive. Discuss this statement. [20]
3. A good analysis or even a good decision does not guarantee that the optimal solution will be selected and implemented. [20]
4. With the aid of examples describe intellectual and social characteristics of policy analysis. [20]
5. With the aid of relevant case examples discuss the relationship between ill structured problems and approaches to monitoring? [20]
