Questions carry equal marks

Write legibly.

NHIR 111 Classical African Political Thought

Question 1

Discuss and analyse the significance of the human brain in the creation of knowledge and the significance of knowledge in international relations.

Question 2

What roles did Homo Habilis, Homo Erectus, Homo Sapiens and Homo Sapiens Sapiens play in the evolution of science and technology?

Question 3

Explain the strategies used by Kemet to sustain food security within the context of the significance of science and technology. Do you think what was achieved is relevant to the modern African states?

Question 4

Refer to Kemet and provide analysis of power and its elements and how you would manage power if elected to a position of authority.

Question 5

Discuss the evidence that explains the link between Kemet and the rest of Africa.

Question 6

Identify specific issues and discuss what you have learnt from this course.
