INSTRUCTIONS

Answer ONE question

Answer each question on a new page

Each question carries equal marks (100).

DO NOT repeat material.

Write legibly.

Question 1

- a) The ILO is a member of the United Nations Development Group with a membership of 187 states.
Describe the role of the International labour organization (60)
- b) State the conventions countries have ratified (30)
- c) ILO has a tripartite governing structure-representing governments, employers and workers (with a ratio of 2:1:1). The goal of the 3 in one is to create free and open debate between the governments and social partners. All other UN bodies have only the government representatives. What challenges do you think this presents?(10)

Question 2:

Several outbreaks have been reported globally due to poor food safety management.

- 1. State five keys to growing safer fruits and vegetables (40)
- 2. Describe any food poisoning outbreak that occurred in your country and how it could have been avoided (60)

Question 3:

Health care law focuses on the legislative, executive, and judicial rules and regulations that govern the health care industry. The health care industry includes hospitals and hospital systems, public and private insurers, pharmaceutical and device manufacturers, and the individual practitioners who treat patients.

- 1. Describe why it is important for students studying Health Services Management to study health care law.(50)
- 2. Poor waste management poses a great threat to humans and animals citing a practical example from your own country describe any disaster that occurred due to poor waste management and how this could have been avoided (50)
