Answer One Question

Credit will be given for neat, well-written and lucid work.

One

Answer

Question

- 1) Communication regarding HIV is a significant method of preventing the spread of the virus. Discuss various approaches your church can take to sensitize people on HIV and AIDS. Outline the main arguments for and against the use of condoms as a method of preventing HIV infection and ways in which information like this can be disseminated in your church organization
- 2) The World Council of Churches provided a statement on the impact of HIV/AIDS, the beginnings of a response, theological and ethical dimensions, human rights and HIV/AIDS and pastoral care and counselling. Highlight the key issues from this statement and provide your opinion for or against the statement. Evaluate to what extent the views from the WCC statement are being implemented in your church and provide an assessment of the outcome.
- 3) AIDS is causing millions of deaths in Sub - Saharan Africa, explain the various reasons why people still die from AIDS and what role the church can play in

combating HIV and AIDS. As you do this discuss the theological and ethical dimensions, human rights embedded in HIV/AIDS counselling which you read in class and provide your opinion for or against the dimensions

**THE END**
